Coins and Medals are sold at so much per piece. Kindly make your bids accordingly. Do not bid by the lot. If a lot contains 10 pieces and you desire to offer \$2.00 for it, make your bid 20c.

My terms for buying are 5 per cent.

Auction Sales are strictly for cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids, otherwise they will not be accepted.

Collectors with experience have found that all catalogues and all sales are not alike.

My attributions will be found accurate, descriptions ample for recognition and the grading of condition, fair and just, with an absence of lottery throughout the catalogue, also a sparing, appropriate and justified use, of the word rare. Special care and attention to these important matters, featured my first coin sale catalogue and it has been uniformly maintained in all of my two hundred and five public sales.

Bolen's masterly, inimitable reproductions of our early and rare copper coins, struck from dies in solid metal. Nowhere at any period have imitations been so perfectly rendered, in every detail. It is not too much to assume, that the originals of those here offered, are nothing more than patterns or trial specimens, their extreme rarity would seem to go far in support of this, I regard it as doubtful if they ever had circulation. Hence, if we accept such to be the fact, Mr. Bolen's work may be differently viewed and prejudice disposed of. Only 40 of each of the following were struck, when the dies were destroyed. It is my judgment, that ultimately, all of his coins will be welcomed and eagerly sought for. These are not to be classed with electrotypes, casts, alterations or other base impositions.
